## IS MUCH MORE THAN A COLOUR: IT IS RESPONSABILITY

Our code of ethics concerning the environment: all our products are planned and carried out to satisfy the most recent European standards in terms of quality of materials, security and respect for the environment. The adoption of production processes with a low environmental impact, control of toxic substance emissions and significant energy savings are the answers to the problems in a continuously evolving world.

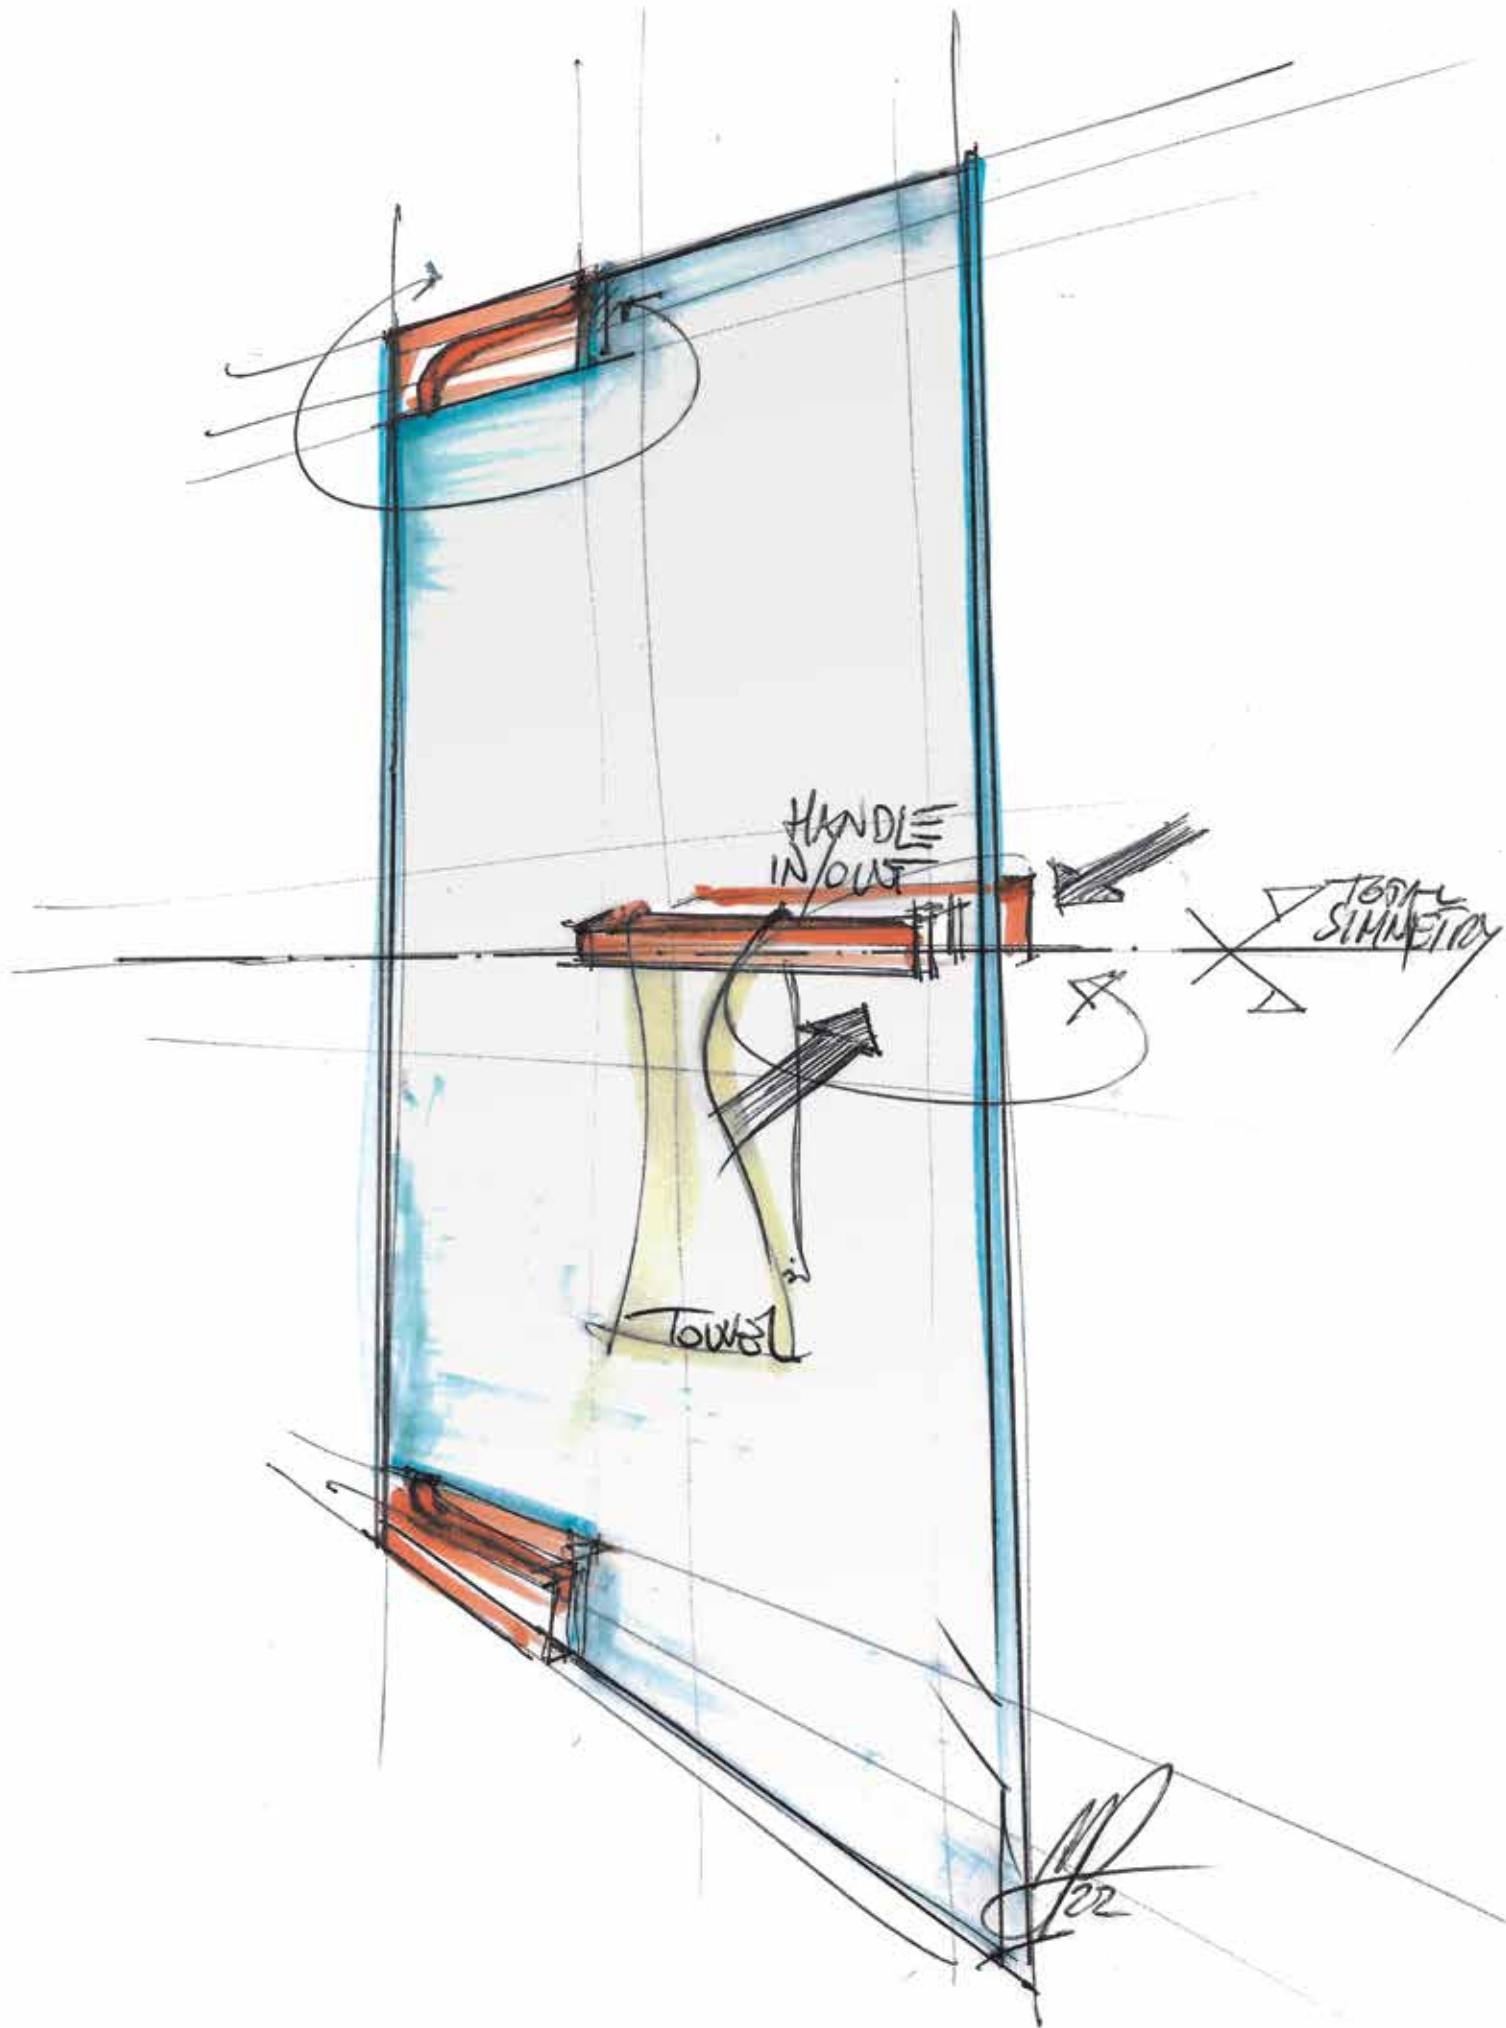

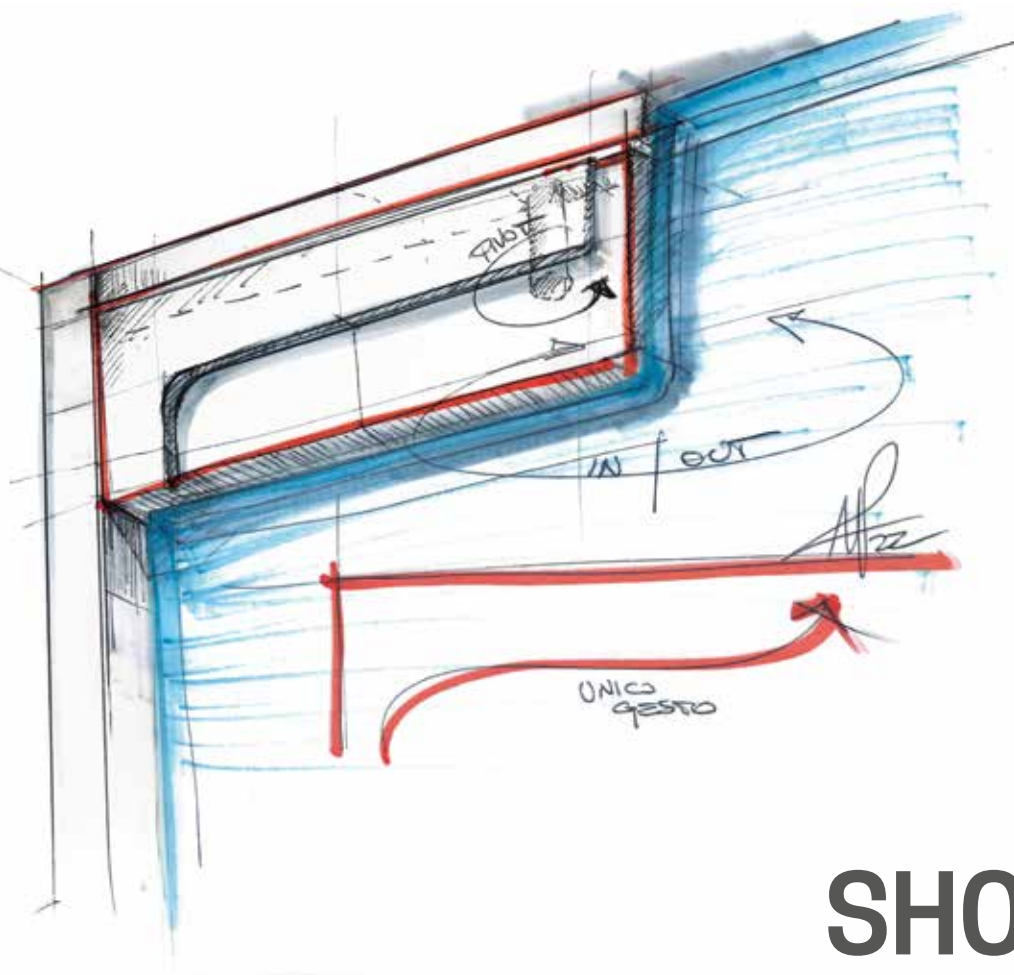

### **NOVELLINI HAS RECENTLY OBTAINED ITS EPD CERTIFICATION FOR 9 RANGES OF SHOWER ENCLOSURES AND SHOWER SPACES.**

EPD (Environmental Product Declaration) is an Environmental Product Declaration that defines the environmental impact of the product, in accordance with international standards ISO 14025 and EN 15804. The EPD reports the results calculated through the analysis of the product's life cycle using the LCA (Life Cycle Assessment) method, evaluating the consumption of resources (materials, water, energy) and the impact on the surrounding environment in the various phases of the life cycle, from the extraction of raw materials to their transport, production and disposal of the product at the end of its useful life.

**Lunes 2.0, Kuadra 2.0, Young, Opera, Kuadra H and Giada H are EPD-certified for a conscious approach to sustainability. The EPDItaly0346 certificate can be viewed at [www.epditaly.it](http://www.epditaly.it).**

Novellini also participated in a sector activity, certifying the Louvre, Zephyros and Kuadra H ranges with EPDs. The EPD certificate No. S-P-01811 can be consulted at [www.environdec.com](http://www.environdec.com)
